MongoDB  
MySQL  
Next.js  
Node.js  
PostgreSQL  
Pug/Jade  
React  
React Native  
SASS/SCSS  
Stylus  
Wintersmith

## Employment History

### **Huge Inc.**

April 2016 – January 2019

- ❖ Worked in collaborative, interdisciplinary teams to bring the spirit of agile development to enterprise-scale organizations.
- ❖ Promoted to *Senior Web Engineer*; mentored junior developers and helped build an industry-leading development team from the ground up.
- ❖ Shipped large-scale, high-traffic web projects for clients including: Nike, TELUS, MEC (Mountain Equipment Co-op), CES (the Consumer Electronics Show), Merck (Pharmaceuticals), Willis Towers Watson, and more.

### **Crowdlinker**

May 2015 – April 2016

- ❖ Worked as part of a small, fast-moving team in a dynamic startup environment.
- ❖ Developed two full featured SaaS projects from start to finish, writing both backend and frontend code in production environments.

### **Nextopia Software**

November 2012 – October 2014

- ❖ Spearheaded the software team's transition to Git; hosted workshops on day-to-day usage as well as the use of Git for deployment in production environments.
- ❖ Contributed significant improvements to the company's core platform. E.g. drastically reduced application response times and greatly optimized the parsing of large data feeds.

### **Plastic Mobile**

August 2011 – August 2012

- ❖ Delivered several large web projects, including: Pizza Pizza's online ordering website; Air Miles Canada's mobile rewards website; and a companion app for Canada's Got Talent alongside Rogers and Blackberry.
